Sufficient samples of the product have been tested and found to be in conformity with the current standard (number and edition)	EN 60 335-2-38:1995
As shown in the test report (reference No.)	196073
Whereby if is found that there is sufficient technical documentation to justify placing of the CE marking on the product according to the Low Voltage Directive (73/23/EEC) as amended by the Directive (93/68/EEC)	

This statement has been established by a body notified to the Member States and Commission of the European Communities according to the provisions of Article 11 of the Low Voltage Directive of 19 February 1973.

This Statement of conformity is the result of testing samples of the product, and verifying the documentation in accordance with the provisions of the relevant specific standards and the Low Voltage Directive (73/23/EEC) as amended by the Directive (93/68/EEC). It does not imply an assessment of the whole production, or fulfillment of other additional requirements in the Directive. The affixing of the CE marking presumes in addition that the conditions in annexes III and IV are fulfilled.

This statement of conformity is not an FI certificate thus not giving the right to use the FI mark on products, its packaging or any marketing material or activities.
