

Pouring plate Metos Proveno/Viking/Culino/Menu

Ergonomic pouring plane which is used to pour liquid in the kettle. Milk, juice etc. The packaging may be cardboard boxes, plastic containers or sous vide bags. One can for example. Pour two milk cartons at the same time, of 20 liters each. The material is stainless steel. Pouring plane is designed so that it is easy to store hanging on the hook. In Hot-fill processes and Metos pump devices, works pouring plane even as a holder for pump-suction nozzle. Pouring Plane fits all Metos kettles.
