

## Active Green care cartridge Metos iCombi AutoDose

Metos iCombi AutoDose care cartridge for the Metos iCombi. The care cartridge prevents limescale from forming, thereby keeping the oven and steam formed in the oven purer, improving food quality and extending the life of the appliance. Solid care products are safer than liquid rinse aid and increase work safety in the kitchen. It is also a more ecological option when water does not need to be transported and stored and the product's sufficiency increases cost efficiency.
