

Water cooler unit Metos Temix 65

Water cooler unit Metos Temix 65 makes still water at room temperature, still chilled water or sparkling chilled water (if CO₂ in use). The cooling unit is compact and easy to install. The machine is designed and built in such a way as to reduce the noise level at the source.

It's ideal for positioning beneath the sink or work-top, thereby leaving the work surface free. It does not have a dispensing button: the water is carried through thermally insulated plastic tubes from the external environment to the dispensing tower. The insulating tube (known as the "python") and the dispensing tower are not included with the machine.

Tank capacity 52 litres, ice bank 25 kg. Compressor 3/4 Hp, cooling power 1280 W. Carbonation pump 300 l/h, pump motor 200W Aisi 304 stainless steel coil. Leave a gap of 40 cm on the sides, back and top of machine for ventilation. For ambient temperatures from 10°C to 32°C.

Water cooler unit Metos Temix 65

Product capacity	280l/h, 200l continuously
Item width mm	541
Item depth mm	591
Item height mm	753
Package volume	0.264
Unit of volume	m3
Package volume	0.264 m3
Package length	55
Package width	80
Package height	60
Package unit of dimension	cm
Package dimensions (LxWxH)	55x80x60 cm
Net weight	48
Net weight	48 kg
Gross weight	52
Package weight	52 kg
Unit of weight	kg
Connection voltage V	230
Number of phases	1NPE
Frequency Hz	50/60
Remarks (electrical)	ventilation gap 40 cm
Cold water min pressure kPa	2
Cold water max pressure kPa	4
Cold water conn. inlet	Behind;Top;Left
Cooling capacity W	1280
Type of the refrigerant	R290
Quantity of refrigerant g	140
Sound level dB	70
