

# Food transport trolley

## Metos Thermobox F180

### Washable

Metos Thermobox F180 Washable food transport trolley is an efficient solution for heat storage and transportation of warm food. The heating cabinet's hot air fan ensures safe and high-quality conditions for storage and transportation of warm food. The convection heat in the F- model reacts faster than the E- model to temperature changes and it is worth choosing whether e.g. the door is opened repeatedly during storage.

The trolley is insulated with polyurethane, which expands under high pressure and unites the trolley's construction and the inner chambers into a strong and well-insulated unit. The trolley's energy-efficient insulation ensures safe and high-quality conditions for storage and transport of food. Controls for the temperature are located behind a sealed cover on the back of the unit.

The trolley can be used in small spaces. The trolley is easy to clean as its inside is completely made of stainless steel and has pressed GN guides without any joints. The trolley can also be washed in the washing machine. Large stainless steel casters as well as bumpers and ergonomic handles around the stroller make the stroller easy to handle and light. The robust door can be opened comfortably by pulling the handle, which is integrated in the frame. The door opens to the side, 270 degrees.

- the capacity is 12xGN1/1, inner dimensions: 330x540x1000 mm, guide distance 80 mm
- temperature range: +40°C...+90°C, factory setting +80°C
- Equipped with 160 mm stainless steel casters, two swiveling with brakes and two fixed without brakes
- the

wheel bracket is made of hot-dip galvanized steel

- the exterior of the red trolley is made of ABS plastic
- stainless steel handle and PVC plastic corner
- the bumper is made of galvanized steel and coated with PVC plastic
- Shuko connector connection, 1,5-2 m spiral cord and holder for plug
- Led lighting tells when the unit is on.

Accessories(charged separately):

- two extra handles
- address card holders A4, A5, A6
- blue or black color without extra price, own color, image or logo for extra price wheel bracket is made of hot-dip galvanized steel
