

Wine cooler Metos TFW400-S

The wine cabinet Metos TFW400-S is designed for the aesthetically attractive display of wine bottles and for storing them at an appropriate temperature.

The wine cabinet Metos TFW400-S has a net volume of 350 litres and holds 165x 0.75 litre bottles. The cabinet has one temperature zone of + 5°C to + 18°C. Temperature control and display are located inside the unit. The fans provide a constant cold air circulation throughout the cabinet. The refrigerant is environmentally friendly R600a.

The wine cabinet has 15 wooden shelves. LED illumination gives bright and even light and brings drinks to the fore. The light has a separate switch, so closing it does not turn off cabinet cooling.

The exterior and interior liner of the appliance is black-painted. The right-handed glass door has a stainless steel handle. The door is interchangeable. Smooth surfaces, removable shelves and automatic defrosting make it easy to keep the device clean.

- one temperature zone : +5...+18°C
- stainless steel door frame and handle
- LED inner light
- fifteen wooden wine shelves
- right hinged glass door, reversible
- there is no lock on the door
- anti vibration cooling system
- exterior and interior finish black color
- electronic controller
- fan assisted cooling
- automatic defrost
- adjustable feet
