

Shelf Metos Dry Ager DX 1000

A half-shelf for the DRY AGER®. Perfect to hang full backs and put half pieces to the rack.

Of course, this half-shelf can be used individually at different heights in the DRY AGER® DX 1000®.

Maximum of 5 grids per unit with reasonable division. Load capacity per half insertion: 25 kg.

Note: The shelf can only be used at the front, you can not push it completely backwards.
