

Neutral serving trolley Luna 1200x650x750

Neutral serving trolley Metos Luna is self-service unit equipped with wheels. In the standard model, two of the wheels can be locked. The food distribution units can be used either alone or they can be used to build a self-service line suitable for the customer's individual needs. At its best, the flexibility of the model comes out in customer-specific solutions, for which the modularity gives numerous possibilities.

The serving trolley has S/S tray slides with a width of 250mm. The high-pressure laminate liners are standard in gray F7912 color. A connecting piece with which the units can be connected to each other is included in the delivery.

- Leveled tray levels 250mm, both sides of the unit
- Durable stainless steel frame, lining plates high-pressure laminate, Standard color: gray F7912
- Light-running wheels, two of which are lockable, standard diameter 125mm
- The furniture has doors for easy access to the switches
- Connecting piece for connecting units together
