

# Water Dispenser Metos Drop-In WD-E

Drop-in model to be palced into the furniture. Powerful cold machine

- electrical faucet
- drain in top plate
- delivery doesn't include connection from cold machine to faucet

### Water Dispenser Metos Drop-In WD-E

## Water Dispenser Metos Drop-In WD-E

Drain diameter	R1/2"
Type of the refrigerant	R290
Quantity of refrigerant g	60

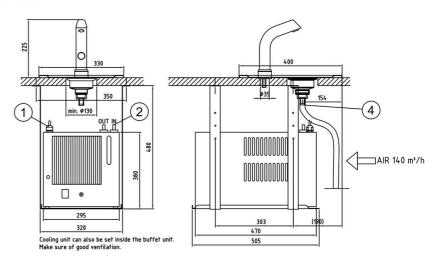

#### Installation on top of the table

#### **Drop-in Water dispenser** Metos D-I WD-E electronical

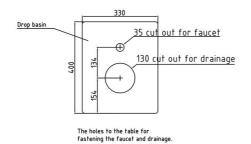

When constructing the counter, an opening for the connection cable must be considered. The opening must be at least the size of a plug (diameter min. 40 mm). In addition, the edges of the opening must be finished to make sure that the connection cable is not damaged by rubbing against the opening edge.

The counter, where drop-in units are installed, must be damp-proof and strong enough to bear the appliance weight.

Net weight: D-I WD-E 29 kg

The electrical box of the electronic faucet has to be fixed inside the counter. Please note the water connection which is connected to the electrical box.

- ① Electric connection: 230V, 1~, 0,5kW, 10A The length of the connection cable is 3,2 m.
- (2) Cold water connection: R1/2", max 500 kPa(4) Drain: Connection for hose with 18 mm inner diameter. Hose not included in the delivery.
