

Wine cooler Metos TFW100-S

The wine cabinet Metos TFW100-S is designed for the aesthetically attractive display of wine bottles and for storing them at an appropriate temperature.

The wine cabinet Metos TFW100-S has a net volume of 57 litres and holds 19x 0.75 litre bottles. The temperature of the cabinet is adjustable between +5°C...+18°C. Temperature control and display are located inside the unit. The fans provide a constant cold air circulation throughout the cabinet. The refrigerant is environmentally friendly R600a.

The wine closet has six wooden shelves. LED illumination gives bright and even light and brings drinks to the fore. The light has a separate switch, so closing it does not turn off cabinet cooling.

The exterior and interior liner of the appliance is black-painted. The right-handed glass door frames and the door handle are stainless steel. The door's handedness is interchangeable. Smooth surfaces, removable shelves and automatic defrosting make it easy to keep the device clean.

- glass door, whose handedness is interchangeable
- there is no lock on the door
- capacity 19 pieces/750 ml bottles
- net volume is 57 litres
- temperature adjustment +5°C...+18°C.
