

Descaling agent Metos Off Calc

Descaling small machines is easily done with Off Calc. Off Calc descaler has a low pH(1.5) and contains citric acid. It is recommended that the coffee maker should be descaled several times a year and the washing machine 1-4 times a year.

Characteristics: An odorless, colorless liquid that effectively removes and softens lime that impairs device performance. Users and materials safe.

Instructions for use and dosage:

- used according to the operating instructions for the machine
- 100 ml to the dishwasher when the machine is filled with water
- 250 ml in the washing machine and used with standard washing program
- the coffee machine (50 ml / 0.5 l) should be rinsed a lot after descaling
